P.O. Box 5087  
Manchester, NH 03108

## **INTRODUCTION**

This report explicitly presents the New Hampshire utility allowances for the year 2017. These include estimated cost allowances for space heating, water heating, cooking and miscellaneous electric use (lights, refrigeration etc.). A survey of energy suppliers was conducted by the New Hampshire Housing Finance Authority in order to obtain current utility rates for the state. These rates, together with the standard physical consumption allowances were used to calculate utility allowances in dollars for the various regions of the state.

Table 1, on Page 2 of this schedule, shows current utility rates for New Hampshire as of: January 2017. This table includes current consumer costs for electricity, natural gas, bottled gas, and fuel oil. Propane and fuel oil rates were gathered from a variety of suppliers throughout the state.

As a result of the deregulation of the electric utility within the state, the electric rates were supplied by a survey of electric companies providing electricity within the state. A weighted average was used to calculate the electric rate. A weighted average was also used to calculate the natural gas rates within the state.

Table 2, on Page 4, shows physical consumption allowances for cooking, miscellaneous electric use and water heating. These allowances are arrayed by number of bedrooms.

In order to accurately calculate the monthly heating allowance, four heating zones were created within the state. A base of 7500 degree days has been established and is accordingly adjusted by a series of multipliers to account for different heating requirements within the different zones. A ratio of average degree days for the zone to 7500 degree days is used to create a multiplier for each heating zone, as shown in Table 3, on Page 4.

These multipliers are then applied to the physical consumption allowances for 7500 degree days (as illustrated in Table 4) to obtain the consumption allowances for each of the four zones within the state, by property type and number of bedrooms.

Monthly dollar allowances for cooking, hot water and miscellaneous tenant supplied utilities are shown on Table 5 (Page 6).

Multiplication of the physical heating allowances by the rates given for the main energy sources results in monthly dollar allowances for heating for each zone, by property type and number of bedrooms. These monthly dollar allowances for each of the four heating zones are shown on Tables 6, 7, 8, and 9.

The Utility Allowance Schedule is published each year by New Hampshire Housing Finance Authority provides estimates for heat and non-heat utility costs. The data is primarily used by the Housing Voucher Program; however it can be used to determine gross rents for rental units where the tenant is responsible for utilities.

### **Calculating Estimated Non-heat Utility Costs (Cooking, Hot Water, and Miscellaneous Electric)**

These allowances are established for the entire state.

1. Determine which utility costs (cooking, hot water, and miscellaneous electric) are not included in the rent.
2. Determine the number of bedrooms for the unit.
3. Use Table 5 to obtain the allowance for cooking, hot water, and miscellaneous electric.
  - a. Select the utility type (cooking, hot water, miscellaneous electric)
  - b. Select the fuel type electric, natural gas, bottled gas, or oil (row of the chart).
  - c. Select the number of bedroom in the unit (column of chart). The allowance is the dollar amount where they intersect.
  - d. Repeat for each utility type.

Monthly charges established by the utility are included in the allowances in Table 5. There are additional meter charges for natural gas if it is used for hot water but not for heat and if electric heat is used for hot water. Please read the table's footnotes and add the applicable meter charge.

### **Calculating Estimated Utility Costs (Heat)**

Heat allowances are dependent upon the location, housing type, and size of housing unit as well as the fuel type used to heat the unit.

1. Based on the location of the unit, determine which Heat Zone to use
  - a. Zone 1 - Cheshire, Hillsborough, and Rockingham Counties
  - b. Zone 2 - Belknap, Merrimack, Strafford and Sullivan Counties
  - c. Zone 3 - Carroll and Grafton Counties
  - d. Zone 4 - Coos County
2. Select the housing type of unit.
3. Select the number of bedrooms in the unit.
4. Select the fuel type used to heat the unit.
5. Determine the heat allowance for the unit.

Monthly charges established by the utility are included in the allowances. Please refer to the footnotes under Table 5.

### **Gross Rent Calculation**

To determine gross rent for the unit, add together the contract rent, non-heat utility allowances, and the heat allowances.

**TABLE 1**

**NEW HAMPSHIRE AVERAGE UTILITY RATES**

**ELECTRICITY (Weighted Average)**

Heating, Cooking and  
Miscellaneous Electric:

First 250 kwh: \$ **0.1685** / kwh  
Over 250 kwh: \$ **0.1701** / kwh  
Customer Charge: **\$14.32** / month

Hot Water:  
\$ **0.1492** / kwh for first 250 KWH  
\$ **0.1507** / kwh over 250 KWH  
Meter Charge: **\$14.32** / month

**BOTTLED GAS (Average)**

Heating: \$ **2.97** / gallon  
Cooking: \$ **3.67** / gallon  
Hot Water: \$ **3.14** / gallon

**NATURAL GAS (Weighted Average)**

Heating: **\$1.14** / therm for the first 50 therms  
**\$1.11** / therm over 50 to 100 therms  
**\$1.06** / therm over 100 therms  
  
Cooking and/or Hot Water: **\$0.98** / therm  
  
Customer Charge: **\$21.92** / month (basic charge for heating)  
**\$16.79** / month (non-heating)

**FUEL OIL (Average)**

Heating: \$ **2.17** / gallon  
Hot Water: \$ **2.17** / gallon

**TABLE 5**

MONTHLY DOLLAR ALLOWANCES FOR  
MISCELLANEOUS TENANT FURNISHED UTILITIES

| Use            | Type of energy           | Unit Size (bedrooms) |      |      |      |       |       |
|----------------|--------------------------|----------------------|------|------|------|-------|-------|
|                |                          | 0                    | 1    | 2    | 3    | 4     | 5     |
| COOKING:       | Natural Gas <sup>1</sup> | \$3                  | \$4  | \$5  | \$6  | \$8   | \$9   |
|                | Electric                 | \$9                  | \$12 | \$15 | \$19 | \$24  | \$27  |
|                | Bottled Gas              | \$19                 | \$22 | \$28 | \$35 | \$44  | \$50  |
| MISCELLANEOUS: | Electric <sup>2</sup>    | \$38                 | \$45 | \$53 | \$62 | \$73  | \$81  |
| HOT WATER:     | Natural Gas              | \$11                 | \$15 | \$19 | \$22 | \$28  | \$33  |
|                | Electric <sup>3</sup>    | \$40                 | \$48 | \$58 | \$68 | \$82  | \$92  |
|                | Bottled Gas              | \$55                 | \$62 | \$81 | \$99 | \$128 | \$147 |
|                | Fuel Oil                 | \$19                 | \$24 | \$30 | \$39 | \$50  | \$56  |

<sup>1</sup> In 2016, the weighted average non-heating gas service charge is \$16.79. It must be added to the allowance for natural gas cooking or hot water if natural gas is not used for heating.

<sup>2</sup> Included in the Miscellaneous Electric dollar amount is a weighted average customer charge of \$14.32 per month.

<sup>3</sup> Included in the Hot Water Electric dollar amount is an additional customer charge of \$3.27 per month.
