

ADDENDUM #2

TECHNICAL DESIGN AND CONSTRUCTION STANDARDS For New Construction

ENERGY STAR CERTIFICATION

Effective: July 11, 2025 (until repealed or replaced)

Energy Star Certification Requirements

Energy Star Certification will no longer be required. This amendment applies only to sections 3.1.6 and 18.1.15 of the Technical Design and Construction Standards as summarized below.

Section 3.1.6 Codes and Standards

- Modeling demonstrating Energy Star compliance is required prior to starting construction. There are no changes to this requirement.
- *Revised:* Upon project completion, Energy Start Certification is not required.

Section 18.1.15 Project Close Out

- *Revised:* Submission of Energy Star Certification is not required.
